Your dealer

“ANSCHÜTZ researches and produces on a high level of technology. In our creations, we draw on the never outdated source of traditional craftsmanship.

In the end, tradition means consistency and steadfastness, not losing your head when it comes to the multitude of perhaps tempting but short-lived trends. And so, we see ourselves as the guardians of an excellent “Made in Germany” concept:

We manufacture nearly all the components of our rifles by ourselves. The employees of ANSCHÜTZ are aware of the responsibility bound up in each individual step of production and are proud to bring with them their experience and specialist knowledge. This is the foundation of the first-class quality of ANSCHÜTZ!

ANSCHÜTZ rifles are not just simple production firearms. They are individual masterpieces that are designed, assembled and tested with the utmost attention to detail.”

**Jochen Anschütz**
