ANSCHÜTZ **1761** AMR

PRECISION STARTS HERE

1761 AMR COMPETITION

USE ALL COMPATIBLE ANSCHÜTZ BUTT PLATES AND SPACERS

The rear stock is based on the well-known 54.30 ONE but features a connection bar that is 20 mm shorter – ideal for personalized adjustments.

Up to 12 mm of cast available for both right- and left-handed shooters. You can also continue using your existing ANSCHÜTZ butt plates.

ANSCHÜTZ ONE CHEEK PIECE

The ONE cheek piece has proven itself in countless competitions. A form-fitting index ring ensures repeatable, precise positioning – ideal when switching between different setups.

MODULAR ALUMINUM STOCK

Three-part modular stock design allows for quick rear stock adjustments in 3-position competitions – giving you a valuable time advantage. The fore-end can also be swapped out with ease.

THE NEW SLIM ANSCHÜTZ ALUMINUM FORE-END

- UIT rail with 330 mm length
- AMFI – precise locking system for the fore-end
- Optional mounting for hand stop, hand rest, etc.
- High-quality, durable finish
- Precision scale integrated into the UIT rail

ANSCHÜTZ MATCH BARREL

This barrel needs no introduction. ANSCHÜTZ barrels are renowned worldwide for their unmatched precision – whether in competition, biathlon, or hunting. In short: it doesn't get any better than this.

ANSCHÜTZ SIGHTS

ANSCHÜTZ offers you a wide selection of diopters and front sight tunnels. Prefer to use your own sight? No problem – the new diopter mount and barrel feature an 11 mm prism rail for full compatibility.

THE NEW ANSCHÜTZ BARREL TUBE

- 11 mm prism rail
- SCATT interface
- Sliding fit with two locking screws
- Dynamic Bars for a sporty look
- Precision scale on the top surface

QUICK DISASSEMBLY

Designed for fast conversion and easy transport: The rear stock and grip can be detached with just a single screw. Especially convenient during or after a long competition day.

THE NEW ANSCHÜTZ ALUMINUM RECEIVER

Our development team has engineered a receiver that perfectly combines material innovation with maximum stability. Made from lightweight yet extremely durable aerospace-grade aluminum, it forms the solid foundation of a highly modular platform.

- Ultra-stable construction
- AMFI interface (female)
- Precision quick-release connection for rear stocks
- Dynamic bars for a bold, sporty look

Rotatable fore-end riser and hand stop – both equipped with UIT mounts.

Integrated UIT rail with laser-engraved 1 mm markings – for precise positioning of accessories such as hand stops, shooting slings, or fore-end risers.

360° rotatable fore-end riser with quick-release mounting.

Bidirectionally woven carbon tube. Lighter than aluminum – three times as strong as steel. **Is it close to the barrel axis? It doesn't get any closer – it runs literally centered.**

The new ANSCHÜTZ MATCH RIFLE (AMR)

Developed for champions, built with passion – the new ANSCHÜTZ small-caliber match rifle sets new standards in the .22 L.r. class.

Countless hours of design and development have gone into the revolutionary chassis system – delivering outstanding ergonomics and maximum control, exactly what you need in competition.

Its dynamic, striking design is highlighted by the integrated Dynamic Bars – for a powerful, sporty look. The seamless connection between action and stock ensures perfect balance and stability in every position – whether standing, kneeling, or prone. This makes the rifle the ideal partner for demanding 3-position shooting disciplines.

Trust in the legendary ANSCHÜTZ precision and reliability – all at a surprisingly fair price. Whether you're chasing records or aiming for your personal best, this rifle will take you to the next level.

ANSCHÜTZ quality.
Proven in competition.
Ready for champions.
