

## ANSCHÜTZ Bolt Tuning Request – Current 64 Actions

Updated 1/2/2017

This form contains instructions to send your ANSCHÜTZ bolt in for tuning at the Custom Shop. *Please read the instructions completely*, fill out the requested information, print a copy, and send along with your bolt to the listed address below.

- Tuning fee is \$75 + \$7.00 for shipping, for a total of \$82.00
- Blued steel bolt knobs are \$25 and installed for free with tuning service. Indicate size ( Large or Small ).
- Please send in a check (payable to: Anschutz North America) for payment or you can call our main office with CC info.

### Additional Notes

- The projected time frame for repair is approximately 3 weeks. Please do not e-mail for status until three weeks have passed. We will try to tune the bolts as soon as possible.
- If you are experiencing any problems with ejection please list below.
